Hardware Security Module Package Upload

[view online](#)

Avi Vantage includes integration support for networked hardware security module (HSM) products, including [SafeNet Network HSM](#) and [Thales nShield](#).

To integrate with HSM, upload of the Avi Vantage user's HSM package is required.

To upload a customer HSM package into Avi Vantage:

1. Navigate to Administration > Settings > Upload HSM Packages.
2. Click Select File, and navigate to the file's location.
3. Click Upload File.
