# Support Overview - Avi Networks

[view online](#)

This article discusses the support options available for VMware (Avi Vantage) customers.

## Knowledge Base

Click on [Avi Documentation](#) to access knowledge base articles on product architecture, product features, release notes, and guides for installation, configuration, DataScript, and REST API.

## Avi Customer Portal

If you have credentials to the customer portal click on [www.avinetworks.com/portal](http://www.avinetworks.com/portal) to download software, licenses, and to open or track support cases. For information on customer portal registration, click on [Customer portal self-registration](#). Refer to [Using the Avi Customer Portal](#) for complete information on the portal. For specific information, click on the links below:

- [Download Software](#)
- [Search Support Case](#)
- [Create Support Case](#)

## Support Personnel

### 24 x 7 Telephone Support

Dial into the following options available to contact the support personnel:

- +1 408 628 1020 in the US
- +44 20 3617 1055 in the UK

Alternatively, you can send an email to [support-nsx-alb@groups.vmware.com](mailto:support-nsx-alb@groups.vmware.com).

The following table lists the support case severity levels and the associated information:

Severity	Initial Response	Support Coverage Hours
S1	30 mins	24*7
S2	4 business hours	24*7
S3	8 business hours	Business hours
S4	12 business hours	Business hours

## Training and Professional Services

Avi Networks offers training and professional services for operation, service, and maintenance of Avi licenses products. Please contact your Avi Networks sales representative for more information or send an email to :

- [education at avinetworks dot com](mailto:education@avinetworks.com)
- [services at avinetworks dot com](mailto:services@avinetworks.com)

## Support Terms and Conditions

For complete information on support terms and conditions, refer to [Support Terms and Conditions](#).

## Avi Vantage Releases

Avi Networks releases two major versions per year, scheduled six months apart. For more information, refer to [Maintenance and Support Releases ? Schedule and Numbering](#).
